SUPPORT VACCINE FREEDOM OF CHOICE IN THE MICHIGAN WORKPLACE

A PETITION asking you, our legislators, to support **Vaccine Freedom of Choice in the Workplace** for the following reasons:

1) Vaccines carry the risk of injury and death and an employee should not have to be forced to choose between their job and taking a vaccine.
2) MCLA § 333.9215 (2) allows vaccine exemptions for students in schools and children in daycare. An employee should be extended the same right in the workplace.
3) In June of 2010, The United States Centers for Disease Control stated it does not support mandatory flu vaccines for health care workers, and wearing surgical facemasks as an alternative.
4) Vaccine preventable diseases are not a problem in hospitals. The real problem is acquired infections with antibiotic resistant bacteria such as MRSA accounting for almost 100,000 deaths and a cost of $1.7 billion annually.
